

Imperial Readies for Summer

Imperial Toy will add three new entries to its Super Miracle Bubbles line. **Bubble Ball Blitz** is a handheld bubble party machine featuring triple stream blasting and a no-dipping, spill-proof activator. Bubble Countin' Chompers are monsters that can count to 50, say five funny phrases, and giggle and burp bubbles. The **Monster Bubble Belly Party Machine** is the home of Party Marty whose clear belly can be filled with bubble solution. As he spins around, his chomping mouth releases bubbles.

The **Team Tubez Water Bomb** in Imperial's Water Splashers line brings team sport play to water bombs by color coordinating the bombs and including a water spout for quick refills. Also in the line is the **Ultimate Beach Ball Sprinkler**, an 88-inch sprinkler that splashes water as kids roll around it and the **Super Spiral**, which features a spiral that shoots up balls with its jet stream.

Also new from Imperial is the **Lifelike Punchball Critter**, a punching ball made out of lifelike material and three new bubble guns: **Endless Bubbles**, **Endless Bubbles II**, and **Tiny Endless Bubbles II**.
